Sound insulation for bath-tubs, washbasins and WC

OHA-2-Protectband

To install between wall and bath-tub, for professional installations of bath-tubs and showers. The integrated water-impermeable fleece ensures a second water barrier, behind the silicone joint, so that no water can penetrate in the wall. Ideal for avoiding the penetration of moisture. It is especially suitable for falling water, for example in showers. According to the latest state of technology, we consider this precaution to be especially recommendable.

Article no.	PU	PU	PU	Colour	Length:	Width x height	Suitable for:
4393	1	5	90	white	3,6 m	75 x 5 mm	bath-tub
4395	1	15	90	white	2,0 m	75 x 5 mm	shower tub

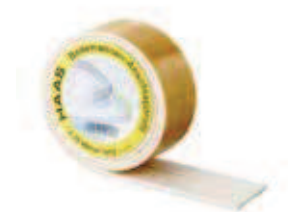

Sound insulation for bath-tubs

Isolation between bath-tub and wall, made of premium, white PE-foam, one-side adhesive, with tear seam. With the utilisation of this sound insulation for the mounting of bath-and shower-tubs, the acoustic bridge between wall and tub is suspended. Application: The overlaying profile will be ripped out and the gap between tile and wall will be spout out with sealing compound for joints.

Cardboard content: 20 pieces

Article no.	PU	PU	PU	Colour	Roll length:	Roll width:	Thickness:
4390	20	500		white	2.700 mm	50 mm	4 mm
4391	20	500		white	3.300 mm	50 mm	4 mm

Sanifreund® - Mounting strips

The mounting strip is made of premium PE-foam, onesided adhesive. For the adjustment of roughness for wall- and floor installation of sanitary objects (washbasins, depot, WC- and bidet basins). The stripes are stamped with indentations, this makes an adaption of sanitary objects easier. Compressible, nevertheless the cell structure which effects the silencing, is not destroyed, no absorption of water, because the material is closed porous.

The sound propagation will be reduced significantly, because the sanitary object rest not on the tiles anymore.

Packed in a box

Cardboard content: 24 rolls

Article no.	PU	PU	PU	Colour	Roll length:	Roll width:	Thickness:
7284	16	48	960	white	2 x 4.500 mm	36 mm	3 mm

Rubber insulating pad

Suitable for versatile operation purposes e.g. for bath-tub feet.

- ▶ resistant to aging and weather, EPDM-quality
- ▶ with drill holes: 9 mm diameter
