

**Gully bodies, socket inclination: 90°**

**Product information for the product group**

**ACO Product benefits**

- Retrofit clamping flange
- Optimum cleaning option
- Adjustable height thin bed seal
- Retrofit fire protection

**Fire protection**

Fire resistance class R30 – R120 tested according AbZ: Z-19.17-1887

- Gully bodies DN 70/DN 100
- Made of plastic (Polypropylen)
- Tested to DIN EN 1253-1
- With bracket/connecting rim
- With removable foul air trap
- Water trap depth: 50 mm
- With integrated seal to seal the flow gap between gully body and top section
- With protective cover added during installation
- Suitable top sections
  - Standard top sections
  - Top sections for thin bed sealing
  - Top sections for customer choice of surface

**Item Technical Data 2710.00.00**

Nominal width	Version	Side inlet	Recess [mm]	Description	Flow rate [l/s]	Weight [kg]
DN 70	Standard	Without lateral inlet	200 x 200	■ Water trap depth: 50 mm	1.6	0.6
