Materials:

Body in brass

Plate in stainless steel

Washer in NBR

Spring in stainless steel

Min and max temperature: -20°C, 100°C.

Threds ISO 228

The EUROPA® check valves are uni-directional; that means they manage the flow in one direction only, which is indicated by the arrow on the body.

The valves can be installed in any position: vertical, horizontal, oblique.

Diagram minimum pressure to get the valves opening:
