

SHU 5 SLi

PRODUCT-NO.: 222151

Enjoy hot water together

This model of small water heater is a real all-rounder. If required, the undersink appliance can supply multiple draw-off points with DHW simultaneously. This is particularly useful in your bathroom: several members of your family can enjoy hot water to their washbasin at the same time, whether they are brushing their teeth, washing their hands or cleansing their face.

The pressure-tested undersink solution can be combined with most pressure taps. Thanks to its compact dimensions, the small water heater is ideal if there is limited space under your washbasin.

The main features

Variable temperature selection in the range of 35 - 82 °C

Safe use due to adjustable mechanical temperature limit as anti-scalding protection

Optimised DHW heating for higher efficiency thanks to ECO mode

Suitable for multiple draw-off points
