

Quadro S

Velg produkt fra listen under

Høiax Quadro S comes in three sizes 60, 110 and 160. These water heaters are perfect where floor space is the defining criteria. In addition, the water heaters now have an external adjustable thermostat with Eco position.

Please contact our Export Department to find the correct product range for your market.

THE WATER HEATERS FOR NARROW PLACES

PRODUCT ADVANTAGES

INSULATION

- High density CFC free and fire retardant polyurethane foam insulation
- Leading heat loss performance of less than 70W
- This can reduce energy costs by up to 15%

LIFE SPAN

When installed correctly, and otherwise adhering to instructions concerning water quality, Høiax Quadro S series has an expected life span of at least 20 years.*

STEEL QUALITY

- 1.4521 Niobium-Titanium stabilized steel
- Offers extreme protection against corrosion
- The steel gauge is also thicker and therefore better than those used by other

* This does not apply to parts, such as thermostat and immersion heater.
