

**Processor controlled thermostats for room/floor heating**

Available with concealed/visible knob or digital display. Model with visible knob also available with switch and in 400 V.

On/off control (for slow systems) or proportional control (for faster systems) in the same thermostat. TD10 has adjustable P-band and time of cycle.

Internal and/or external sensors (external sensor RTS01 available as an accessory) give the possibility of selecting the sensor function e.g limiting external sensors (min/max). Save reduction either by built-in manual switch or via external timer. CE compliant.

Technical parameters

Nominal data		
Enclosure class	IP30	
Temperature range	5 to 37	°C
Dimensions and weights		
Length	80	mm
Height	80	mm
Depth	31	mm
Weight	0.1	kg
Motor/control supply		
Control/motor supply	230	V
Control/motor current	10	A

Accessories

RTS01 Ext. floor/duct sensor (10250)
